This Presentation (together with oral statements made in connection herewith, the “Presentation”) is for informational purposes only to assist interested parties in evaluating AITi Global, Inc. (along with its consolidated subsidiaries, “AITi Global” or the “Company”).

About AITi Global

AITi Global is a leading independent global providing entrepreneurs, multi-generational families, institutions, and emerging next-generation leaders with fiduciary advisor services underscored by a commitment to impact or values-aligned investing. The firm currently manages or advises on approximately \$96 billion in combined assets and has an expansive network with approximately 465 professionals globally.

Forward-Looking Statements

Some of the statements in this presentation may constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 (the “Securities Act”), Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact are forward-looking, including statements regarding future financial results, long-term value goals, restructuring and resegmentation expectations. Words such as “anticipate,” “believe,” “continue,” “estimate,” “expect,” “future,” “intend,” “may,” “plan” and “will” and similar expressions identify forward-looking statements. Forward-looking statements reflect management’s current plans, estimates and expectations and are inherently uncertain. The inclusion of any forward-looking information in this presentation should not be regarded as a representation that the future plans, estimates or expectations contemplated will be achieved. Forward-looking statements are subject to various risks, uncertainties and assumptions. Important factors that could cause actual results to differ materially from those in forward-looking statements include, but are not limited to, global and domestic market and business conditions, successful execution of business and growth strategies and regulatory factors relevant to our business, as well as assumptions relating to our operations, financial results, financial condition, business prospects, growth strategy and liquidity and the risks and uncertainties described in greater detail under “Risk Factors” included in AITi’s Annual Report on Form 10-K filed March 31, 2026, and in the subsequent reports filed with the Securities and Exchange Commission (the “SEC”), as such factors may be updated from time to time. We undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law.

Financial Information

The financial information and data contained in this Presentation is unaudited and does not conform to Regulation S-X promulgated under the Securities Act. Accordingly, such information and data may not be included in, may be adjusted in or may be presented differently in, any registration statement that may be filed by AITi Global.

In July 2025, our international real estate business was placed under administration, qualifying it for presentation as discontinued operations. Accordingly, prior periods have been restated to reflect continuing operations in compliance with U.S. GAAP. Furthermore, consistent with this presentation, we have consolidated our financial reporting into a single operating segment.

Due to rounding, numbers presented throughout this Presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Industry and Market Data

Certain information contained in this Presentation relates to or is based on studies, publications, surveys and AITi Global’s own internal estimates and research. In addition, all of the market data included in this Presentation involves a number of assumptions and limitations, and there can be no guarantee as to the accuracy or reliability of such assumptions. Finally, while AITi Global believes its internal research is reliable, such research has not been verified by any independent source and none of AITi Global or any of its affiliates nor any of their respective control persons, officers, directors, employees or representatives make any representation or warranty with respect to the accuracy of such information.

Use of Non-GAAP Financial Measures

The non-GAAP financial measures contained in this presentation (including, without limitation, Adjusted Net Income (Loss), Adjusted EBITDA and EBITDA) are not GAAP measures of AITi Global’s financial performance or liquidity and should not be considered as alternatives to net income (loss) as a measure of financial performance or cash flows from operations as measures of liquidity, or any other performance measure derived in accordance with GAAP. A reconciliation of such non-GAAP measures to their most directly comparable GAAP measure is included in the Appendix of this presentation. You are encouraged to evaluate each adjustment to non-GAAP financial measures, and the reasons management considers it appropriate for supplemental analysis. AITi Global believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends. Our presentation of these measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. In addition, these measures may not be comparable to similarly titled measures used by other companies in our industry or across different industries.

Our vision and why it matters

OUR PURPOSE

Make Wealth Worth More.

By understanding the people, not just the portfolio, and thinking in decades, not quarters, we don't simply manage wealth.

We make wealth personal, powerful and permanent.

OUR BELIEF

Investment excellence is non-negotiable.

But when wealth is managed with the clarity of a client's purpose, it delivers better outcomes -

Financially, emotionally, generationally.

WHY THIS MATTERS

Where investment excellence meets client purpose is a commercially rooted and market driven positioning that delivers:

Strong client retention

High levels of wallet share

Relationships that transcend generations

Why we created AITi

Incumbent Private Banks

Historically the only providers equipped to support the ultra-high-net-worth segment of the wealth management market – with significant drawbacks

Global platform with
extensive resources

Limited and inflexible services
and reporting structure

Integrated, multidisciplinary
service offerings

High fees, less pricing transparency

Culture of compliance

Standardized solutions,
less customization

Advisor turnover; risk of clients
leaving with advisors

Conflicts of interest
/ misaligned incentives

Over 25 years ago, we envisioned a new kind of UHNW platform. A platform with the resources and scale of a global private bank, but with the personal touch, independence, and flexibility clients sorely felt were missing.

Private banks are structurally unable to offer independent advice, bespoke solutions, or integrated cross-border capabilities for UHNW clients.

AITi is purpose-built to serve the unique, evolving, and global needs of the UHNW sector.

A differentiated business purpose-built over 25+ years

Foundation of our Platform	Comprehensive capabilities	Full suite of offerings to serve the comprehensive and evolving needs of our clients, including investment advisory, family office services, estate & wealth planning, trust & fiduciary, governance & education, and impact investing
	Track-record and relationships	25+ year track record with significant scale built over our history; relationships with 800+ UHNW families, endowments and foundations
	Global	We have built a truly international business with operations in each key center of wealth globally, reflecting the global nature of our client base; development of our global footprint is unique and difficult to achieve
Scalable Customization	Investment platform	Leading investment advisory practice driven by highly experienced and credentialed investment managers with ability to customize portfolios to meet unique client needs; differentiated expertise in alternatives and access to premier alternative asset managers
	Regulatory / compliance	Our business is built upon a truly robust compliance, reporting, and controls framework across multiple jurisdictions, informed by the global nature of our operations and our experience adhering to public company standards
	Corporate infrastructure	We have invested significant resources and time into building an industry-leading, centralized operational infrastructure and technology suite, enabling us to now scale rapidly; centralized operations for our international business in Lisbon built upon the success of our U.S. model
	M&A engine	Dedicated M&A team, process and strategy for inorganic growth that prudently targets accretive acquisitions that add specific capabilities or expand our geographic reach; successfully completed and integrated 10+ acquisitions over the last decade

Key investment highlights

- 1 Differentiated focus on the UHNW segment – the most attractive and highest growth segment within wealth management
- 2 Trusted and sought after, delivering exceptional wealth management solutions to the UHNW segment for 25+ years
- 3 Unique global footprint with international presence and ability to serve cross-border families and institutions
- 4 Holistic, integrated, investment-led capabilities for UHNW and institutional clients
- 5 Strong pipeline of M&A opportunities and successful track record of integration
- 6 Robust financial profile with highly recurring revenue and ongoing initiatives for margin expansion
- 7 Leadership team with deep industry expertise and decades of experience

03. Balance Sheet Capacity

● Financial flexibility to capitalize on future growth opportunities

Second Quarter 2026 Highlights

Second Quarter Highlights

- Revenue Growth:** Consolidated revenues of **\$58 million** for the quarter, increasing **11% year-over-year**.
 - Management Fee Strength:** Management fees were **\$54 million** in the quarter, **up 11% year-over-year and 5% sequentially**. Management fees continue to represent the majority of our revenue base, reflecting the stability and recurring nature of our business model.
 - AUA/AUM:** Assets under advisement and assets under management at period end were **\$96 billion** and **\$51 billion**, reflecting net positive inflows and market appreciation. AUM **grew 8% year-over-year and 6% sequentially**.
 - Operating Expenses:** Total Operating Expenses improved to **\$69 million** in the quarter, a **12% year-over-year decline**, on reductions in both compensation and non-compensation expenses.
- Management focus:** Priority areas include **accelerating organic revenue growth**, evaluating **selective inorganic opportunities** in core markets, and **simplifying the cost structure**. While reported expenses do not yet fully reflect progress due to the strategic review, **underlying trends are improving** and better aligning the business with its **long-term earnings power**.

Second Quarter 2026

Select Financial and Operating Metrics

- **Revenue** of \$58 million, up 11% from the prior-year quarter, driven primarily by management fees benefitting from increases in AUM. Distributions from investments increased 28% year-over-year, primarily due to External Strategic Manager outperformance.
- **Total Operating Expenses** improved to \$69 million in the quarter, a 12% year-over-year decline, reflecting a 40% reduction in professional fees and meaningful decreases in compensation and benefits, G&A, occupancy and marketing expenses, which primarily resulted from the Company's continued focus on organizational streamlining and cost saving initiatives. On a normalized basis, excluding non-recurring and non-cash items, operating expenses were \$53 million.
- **Other Expense** was \$20 million in the quarter, primarily due to an unrealized investment loss on the Company's Asian Credit and Special Situations stake, resulting from an unexpected decision by the investment manager to unwind the fund within a 12-month time horizon. This compared to other expense of \$5 million in the year-ago period.
- **GAAP Operating Loss** of \$11 million, a 58% year-over-year improvement, reflected growth in total revenue and recurring management fees, as well as lower OpEx.
- **Adjusted EBITDA** of over \$5 million, a 9% increase from the same period last year, also reflected growth in total revenue and recurring management fees, as well as lower OpEx.
- **Total AUM** of \$51.4 billion, reflecting net positive inflows and market appreciation.

Glossary

Assets Under Management and Assets Under Advisement. Unless otherwise defined and subject to applicable regulations, assets under management ("AUM") refers to assets on which a business provides continuous and regular billable supervisory or discretionary management services and non-discretionary arrangements constituting investment advice of an on-going nature. Assets under advisement ("AUA") refers to assets that are managed or custodied, as well as non-discretionary assets that are not managed but are overseen in a consulting or similar capacity. For financial presentation purposes, total assets under management and assets under advisement ("AUM/AUA") of AITi is calculated as follows: (a) AUM/AUA includes billable and non-billable assets. Billable assets represent the portion of assets on which we charge fees, including under co-investment arrangements. Non-billable assets are exempt of fees and can include cash and cash equivalents, real estate, investment consulting assets and other types of assets designated as such; (b) for the purpose of calculating International Real Estate co-investment assets, we include the gross asset value of all assets managed or supervised by operating partner subsidiaries, affiliates and joint ventures in which we hold either a majority or minority stake; and (c) our AUM/AUA includes the assets under management of each of our External Strategic Managers. *AITi's AUM/AUA should not be viewed as AUM reporting for regulatory and/or statutory purposes under the U.S. Investment Advisers Act of 1940, as amended.*

Adjusted EBITDA. We use Adjusted EBITDA as a non-US GAAP measure to track our performance and assess our ability to service our borrowings. This is a non-US GAAP financial measure supplement and should be considered in addition to and not in lieu of, the results of operations, prepared in accordance with US GAAP. Adjusted EBITDA is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of net income (loss). Adjusted EBITDA represents adjusted net income plus (a) interest expense, net, (b) income tax expense, (c) adjusted income tax expense less income tax expense, and (d) depreciation and amortization expense.

Adjusted Net Income. We use Adjusted Net Income as a non-US GAAP measure to track our performance and assess our ability to service our borrowings. This is a non-US GAAP financial measure supplement and should be considered in addition to and not in lieu of, the results of operations, prepared in accordance with U.S. GAAP.

Adjusted Net Income represents net income (loss) before taxes plus (a) equity-settled share-based payments, (b) transaction-related costs, including professional fees, (c) impairment of equity method investments, (d) change in fair value of investment or other financial instruments, (e) onetime bonuses recorded in the statement of operations, (f) compensation expense related to the earn-in of certain variable interest entities, and (g) adjusted income tax expense.

Billable Assets. Represents the portion of our AUM/AUA on which we charge fees.

External Strategic Managers. are those managers in which the we have made an external investment, and the strategies of these managers include Real Estate Bridge Lending, European Long/Short Equity and Asian Credit and Special Situations.

Impact Investing. Investment practices seeking to generate various levels of financial performance together with the generation of positive measurable environmental and social impacts.

MFO. Multi-family office

Mgmt./Advisory Fees. Mgmt./Advisory fees represent fees recurring in nature, primarily management fees.

OCIO. Outsourced Chief Investment Officer

Recurring revenues. Management/Advisory fees plus the management fee portion of distribution from investments.

UHNW. Ultra High Net Worth individuals are people with a net worth of at least \$30 million.

A description of the strategies is provided below:

Event-driven: The Event-driven strategy is based in New York. This strategy focuses on 0-to-30-day events within the merger process. The investment team employs deep research on each situation in the portfolio with a focus on complex, hostile, up-for-sale situations where our primary research work can drive uncorrelated alpha. The research and investment process is focused on hard catalyst events and is not dependent on deal flow.

Real Estate Bridge Lending : The Real Estate Bridge Lending strategy is managed by an external manager based in Toronto and focuses on complex construction, term, and pre-development bridge loans throughout North America. The strategy's diversified portfolio primarily consists of first lien mortgages with little to no structural leverage. The team places an emphasis on risk management via rigorous underwriting consisting of borrower analysis, vetting, and extensive monitoring across all major real estate asset classes.

European Long Short Equities: The European Long Short Equities strategy is managed by an external manager based in London. The strategy trades the portfolio actively and absolute return-oriented with a focus on financials, cyclicals, and mining and minerals. The strategy is market agnostic and runs with a variable net exposure, equally comfortable net long or net short.

Asia Credit and Special Situations: The Asia Credit and Special Situations strategy is managed by an external manager based in Hong Kong. The strategy includes performing, stressed, and distressed bonds and loans throughout the Asia Pacific region. The manager strives to capitalize on what it believes is an under-researched and inefficient market with limited competition and attractive levels of stressed and distressed activity.
