Our vision and why it matters

OUR PURPOSE

Make Wealth Worth More.

By understanding the people, not just the portfolio, and thinking in decades, not quarters, we don't simply manage wealth.
We make wealth personal, powerful and permanent.

OUR BELIEF

Investment excellence is non-negotiable.
But when wealth is managed with the clarity of a client's purpose, it delivers better outcomes -
Financially, emotionally, generationally.

WHY THIS MATTERS

Where investment excellence meets client purpose is a commercially rooted and market driven positioning that delivers:

Strong client retention	High levels of wallet share	Relationships that transcend generations

Why we created AlTi

Incumbent Private Banks

Historically the only providers equipped to support the ultra-high-net-worth segment of the wealth management market – with significant drawbacks

Global platform with extensive resources	Limited and inflexible services and reporting structure
Integrated, multidisciplinary service offerings	High fees, less pricing transparency
Culture of compliance	Standardized solutions, less customization
	Advisor turnover; risk of clients leaving with advisors
	Conflicts of interest / misaligned incentives

Over 25 years ago, we envisioned a new kind of UHNW platform. A platform with the resources and scale of a global private bank, but with the personal touch, independence, and flexibility clients sorely felt were missing.

AITi | TIEDEMANN GLOBAL

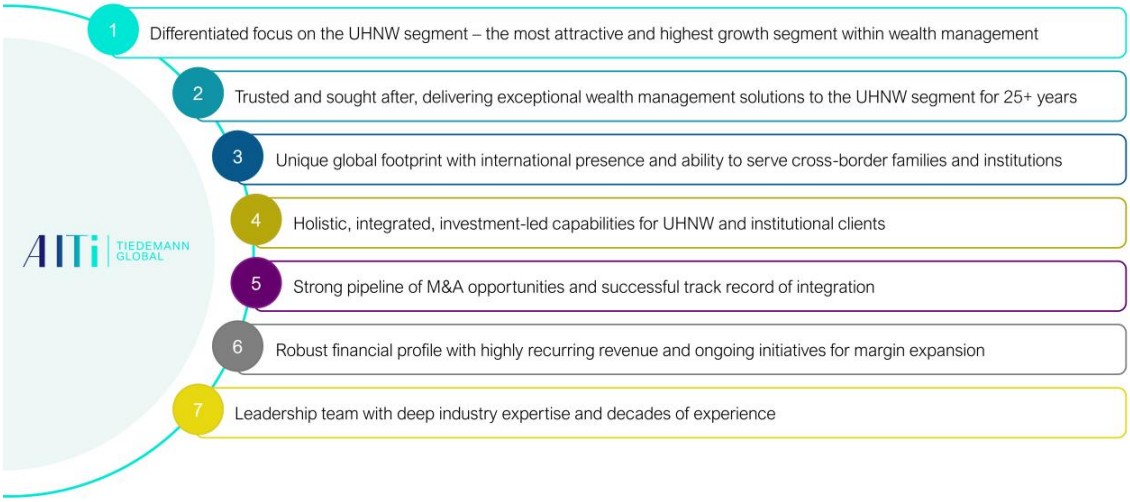

Private banks are structurally unable to offer independent advice, bespoke solutions, or integrated cross-border capabilities for UHNW clients.

AITi is purpose-built to serve the unique, evolving, and global needs of the UHNW sector.

A differentiated business purpose-built over 25+ years

Foundation of our Platform	Comprehensive capabilities	Full suite of offerings to serve the comprehensive and evolving needs of our clients, including investment advisory, family office services, estate & wealth planning, trust & fiduciary, governance & education, and impact investing
	Track-record and relationships	25+ year track record with significant scale built over our history; relationships with 800+ UHNW families, endowments and foundations
	Global	We have built a truly international business with operations in each key center of wealth globally, reflecting the global nature of our client base; development of our global footprint is unique and difficult to achieve
Scalable Customization	Investment platform	Leading investment advisory practice driven by highly experienced and credentialed investment managers with ability to customize portfolios to meet unique client needs; differentiated expertise in alternatives and access to premier alternative asset managers
	Regulatory / compliance	Our business is built upon a truly robust compliance, reporting, and controls framework across multiple jurisdictions, informed by the global nature of our operations and our experience adhering to public company standards
	Corporate infrastructure	We have invested significant resources and time into building an industry-leading, centralized operational infrastructure and technology suite, enabling us to now scale rapidly; centralized operations for our international business in Lisbon built upon the success of our U.S. model
	M&A engine	Dedicated M&A team, process and strategy for inorganic growth that prudently targets accretive acquisitions that add specific capabilities or expand our geographic reach; successfully completed and integrated 10+ acquisitions over the last decade

Glossary

Assets Under Management and Assets Under Advisement. Unless otherwise defined and subject to applicable regulations, assets under management ("AUM") refers to assets on which a business provides continuous and regular billable supervisory or discretionary management services and non-discretionary arrangements constituting investment advice of an on-going nature. Assets under advisement ("AUA") refers to assets that are managed or custodied, as well as non-discretionary assets that are not managed but are overseen in a consulting or similar capacity. For financial presentation purposes, total assets under management and assets under advisement ("AUM/AUA") of AITi is calculated as follows: (a) AUM/AUA includes billable and non-billable assets. Billable assets represent the portion of assets on which we charge fees, including under co-investment arrangements. Non-billable assets are exempt of fees and can include cash and cash equivalents, real estate, investment consulting assets and other types of assets designated as such; (b) for the purpose of calculating International Real Estate co-investment assets, we include the gross asset value of all assets managed or supervised by operating partner subsidiaries, affiliates and joint ventures in which we hold either a majority or minority stake; and (c) our AUM/AUA includes the assets under management of each of our External Strategic Managers. *AITi's AUM/AUA should not be viewed as AUM reporting for regulatory and/or statutory purposes under the U.S. Investment Advisers Act of 1940, as amended.*

Adjusted EBITDA. We use Adjusted EBITDA as a non-US GAAP measure to track our performance and assess our ability to service our borrowings. This is a non-US GAAP financial measure supplement and should be considered in addition to and not in lieu of, the results of operations, prepared in accordance with US GAAP. Adjusted EBITDA is derived from and reconciled to, but not equivalent to, its most directly comparable GAAP measure of net income (loss). Adjusted EBITDA represents adjusted net income plus (a) interest expense, net, (b) income tax expense, (c) adjusted income tax expense less income tax expense, and (d) depreciation and amortization expense.

Adjusted Net Income. We use Adjusted Net Income as a non-US GAAP measure to track our performance and assess our ability to service our borrowings. This is a non-US GAAP financial measure supplement and should be considered in addition to and not in lieu of, the results of operations, prepared in accordance with U.S. GAAP.

Adjusted Net Income represents net income (loss) before taxes plus (a) equity-settled share-based payments, (b) transaction-related costs, including professional fees, (c) impairment of equity method investments, (d) change in fair value of investment or other financial instruments, (e) onetime bonuses recorded in the statement of operations, (f) compensation expense related to the earn-in of certain variable interest entities, and (g) adjusted income tax expense.

Billable Assets. Represents the portion of our AUM/AUA on which we charge fees.

External Strategic Managers. are those managers in which we have made an external investment, and the strategies of these managers include Real Estate Bridge Lending, European Long/Short Equity and Asian Credit and Special Situations.

Footnotes

Past performance does not guarantee or indicate future results. The historical net performance presented are unaudited.

A description of the strategies is provided below:

Event-driven: The Event-driven strategy is based in New York. This strategy focuses on 0-to-30-day events within the merger process. The investment team employs deep research on each situation in the portfolio with a focus on complex, hostile, up-for-sale situations where our primary research work can drive uncorrelated alpha. The research and investment process is focused on hard catalyst events and is not dependent on deal flow.

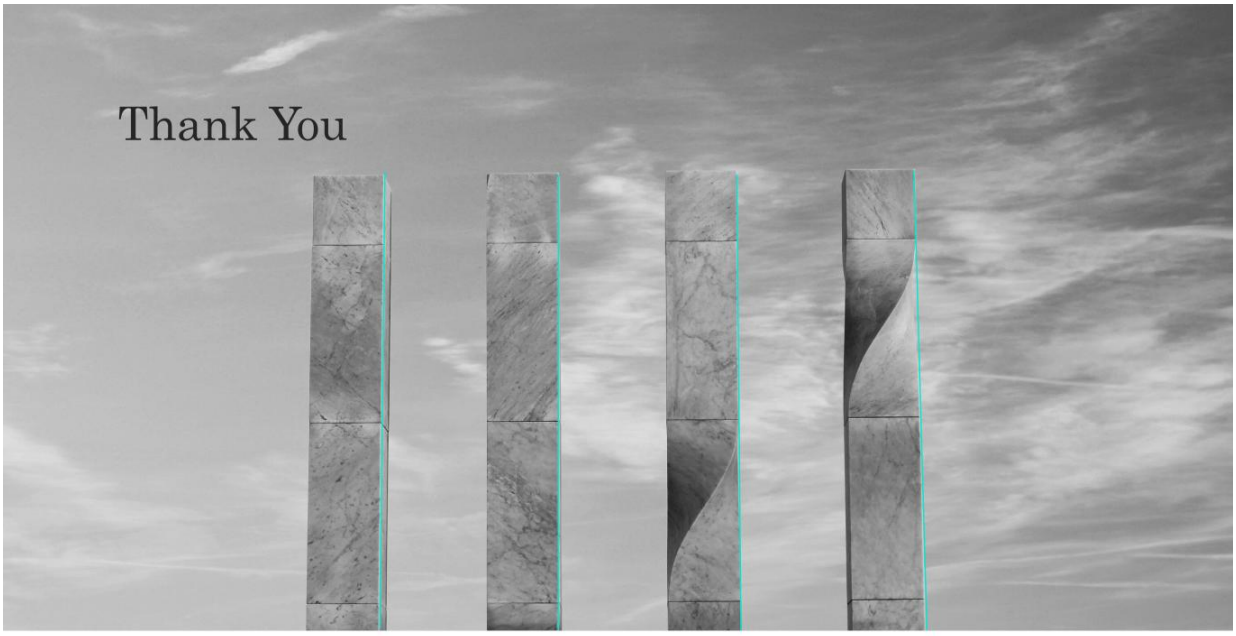

Real Estate Bridge Lending : The Real Estate Bridge Lending strategy is managed by an external manager based in Toronto and focuses on complex construction, term, and pre-development bridge loans throughout North America. The strategy's diversified portfolio primarily consists of first lien mortgages with little to no structural leverage. The team places an emphasis on risk management via rigorous underwriting consisting of borrower analysis, vetting, and extensive monitoring across all major real estate asset classes.

European Long Short Equities: The European Long Short Equities strategy is managed by an external manager based in London. The strategy trades the portfolio actively and absolute return-oriented with a focus on financials, cyclicals, and mining and minerals. The strategy is market agnostic and runs with a variable net exposure, equally comfortable net long or net short.

Asia Credit and Special Situations: The Asia Credit and Special Situations strategy is managed by an external manager based in Hong Kong. The strategy includes performing, stressed, and distressed bonds and loans throughout the Asia Pacific region. The manager strives to capitalize on what it believes is an under-researched and inefficient market with limited competition and attractive levels of stressed and distressed activity.
